[✉](mailto:sukharanjanjana767@gmail.com) [sukharanjanjana767@gmail.com](#) • [LinkedIn](#) • [Portfolio](#)

Professional Summary

Full Stack Developer specializing in the MERN stack, adept at building scalable, high-performance web applications. Skilled in end-to-end development with expertise in frontend (React) and backend (Node.js, Express) integration. Passionate about clean code, responsive design, and innovative problem-solving.

Education

B.Tech in Information Technology, KIIT University
Kalinga Institute of Industrial Technology, Bhubaneswar

Expected: 2025
CGPA: 7.75

Technical Skills

Languages: C, C++, JavaScript, Python, SQL, Java, R
Frontend: React, HTML5, CSS3, Tailwind CSS, EJS
Backend: Node.js, Express.js, MongoDB, REST APIs
Tools: Git, GitHub, Postman, Figma, Adobe Photoshop
Data Science: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Concepts: Data Structures, Algorithms, OOP, DBMS

Projects

Scan&Dine — Restaurant Management System | [Admin](#) | [Demo](#) | [GitHub](#)

Team project (3 members) built with the MERN stack and Redux. Core features:

- QR-code-based food ordering and table reservation
- PayPal integration with secure JWT and bcrypt authentication
- Real-time email alerts via Nodemailer
- Scalable MongoDB Atlas cloud database

MERN E-commerce Platform | [Demo](#) | [GitHub](#)

Developed a full-stack shopping cart application with:

- Product listing, search, filter, and cart management
- Checkout with PayPal/credit card payments
- Admin dashboard for order and inventory tracking
- Fully responsive UI using React Bootstrap

Crop Yield Prediction | [GitHub](#)

Machine learning project with:

- Decision Tree Regression achieving 93% accuracy
- Data cleaning, outlier removal, encoding, and scaling
- Insights visualized via Matplotlib and Seaborn

E-commerce Admin Dashboard | [Demo](#) | [GitHub](#)

Created a modern dashboard with:

- Secure session-based authentication
- Recharts for interactive sales and user analytics
- Clean and responsive UI with focus on usability

Other Projects

- **Music Player App (Python):** Audio playback with playlist and song navigation features | [GitHub](#)
- **YouTube Clone (HTML/CSS):** Responsive clone using Flexbox and CSS Grid | [Demo](#)

Key Skills

- Strong organizational and time management skills
- Ability to work independently and collaboratively in teams
- Detail-oriented and able to manage multiple priorities effectively
